Hello PreK parents!

WE wrap up our Apple theme this week! What fun we have had! Don't forget to check out the picture pages for the pictures from our field trip last week!

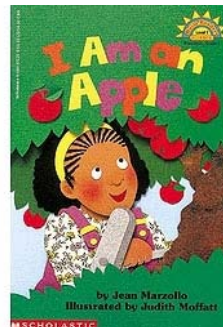

In our imaginary play area we continued to enjoy playing in the Apple Store. We sold apple pies, apple juice, candied apples and red, yellow and green apples.

Our sensory table is always fun and we enjoyed another week of apple oatmeal. It is messy for our janitors and we really appreciate all the work they do for us.

Julie was out two days and we want to thank our sub this week Bonnie Fechter.

We enjoyed playing some apple games on the smart board! WE loved playing the game that is similar to Minesweeper on the computer. We clicked on an apple thought it was so funny when the worm would appear

and it would eat the apple. The other game we played was catching apples in a net, but we had to be careful not to catch the apple bombs!

WE are doing a great job in our journals, we loved drawing pictures and then writing about what we drew! WE can't wait to show you them during conferences. During centers we worked on alphabet recognition and identification, size comparison and counting, of course they were all apples!

Jena read us a great book during read aloud. "I am an Apple" by Jean Marzollo. We learned how an apple grows! Its a great book, check it out at your local library! Jena also taught us a great apple song. Ask us to sign it for you. "clap" "clap", "clap", "clap", 1,2,3,4,5,6,7,8,9,10! Red, yellow, green, delicious, deli-

Wish List!

Remember to keep sending in those "Show and Tell" items. We love sharing our favorite things and it is a great way to learn describing words!
